

May 4, 2026

Denise J. Clark
Associate Vice President for Administration
University of Maryland – College Park
1132 Main Administration Building
College Park, MD 20742-5035

Dear Ms. Clark:

This is in response to the transmission of revision of the Cost Accounting Standards Board (CASB) Disclosure Statement (DS-2) for the University of Maryland – College Park. As the Administrative Contracting Officer (ACO), I am required to determine the adequacy and compliance of the DS-2. Based on the review performed by our Central States Field Office, I have determined that your DS-2 adequately discloses the cost accounting practices required to be disclosed by CASB's rules, regulations, and standards, and that those practices are compliant with applicable Federal cost accounting principles. However, the CASB DS-2 Section 2.5.2 requires disclosure of the Salary and Wage Cost Accumulation System. In accordance with 45 CFR 75.430, Federal approval of the salary and wage cost accumulation system is not required. Therefore, we express no opinion on the Institution of Higher Education's salary and wage cost accumulation system.

Approval of your DS-2 is subject to the following condition: The information provided by the Institution of Higher Education is not later found to be materially incomplete or inaccurate by the Federal Government.

Cost Allocation Services has a new system named Indirect Cost Allocation System (ICAS) that will replace our resource mailbox for accepting indirect cost proposals. Please use the following link to submit your next indirect cost rate proposal: <http://portal.icas.hhs.gov>. All future certifications and transmittal letters will be signed and transmitted within the new system using DocuSign.

Should you have any questions, please contact Ernest Kinneer of my staff at (301) 492-4857.

Sincerely,
Olulola O. Oluborode
-S

**COST ACCOUNTING STANDARDS BOARD
DISCLOSURE STATEMENT
REQUIRED BY PUBLIC LAW
100-679 EDUCATIONAL INSTITUTIONS**

GENERAL INSTRUCTIONS

1. This Disclosure Statement has been designed to meet the requirements of Public Law 100-679, and persons completing it are to describe the educational institution and its cost accounting practices. For complete regulations, instructions and timing requirements concerning submission of the Disclosure Statement, refer to Section 9903.202 of Chapter 99 of Title 48 CFR (48 CFR 9903).
2. Part I of the Statement provides general information concerning each reporting unit (e.g., segments, business units, and central system or group (intermediate administration) offices). Parts II through VI pertain to the types of costs generally incurred by the segment or business unit directly performing under Federally sponsored agreements (e.g., contracts, grants and cooperative agreements). Part VII pertains to the types of costs that are generally incurred by a Central or Group office and are allocated to one or more segments performing under Federally sponsored agreements.
3. Each segment or business unit required to disclose its cost accounting practices should complete the Cover Sheet, the Certification, and Parts I through VI.
4. Each central or group office required to disclose its cost accounting practices for measuring, assigning and allocating its costs to segments performing under Federally sponsored agreements should complete the Cover Sheet, the Certification, and Part I and Part VII of the Disclosure Statement. Where a central or group office incurs the types of cost covered by Parts IV, V and VI, and the cost amounts allocated to segments performing under Federally sponsored agreements are material, such office(s) should complete Parts IV, V, or VI for such material elements of cost. While a central or group office may have more than one reporting unit submitted Disclosure Statements, only one Statement needs to be submitted to cover the central or group office operations.
5. The Statement must be signed by an authorized signatory of the reporting unit.
6. The Disclosure Statement should be answered by marking the appropriate line or inserting the applicable letter code which describes the segment's (reporting unit's) cost accounting practices.
7. A number of questions in this Statement may need narrative answers requiring more space than is provided. In such instances, the reporting unit should use the attached continuation sheet provided. The continuation sheet may be reproduced locally as needed. The number of the question involved should be indicated and the same coding required to answer the questions in the Statement should be used in presenting the answer on the continuation sheet. Continuation sheets should be inserted at the end of the pertinent Part of the Statement. On each continuation sheet, the reporting unit should enter the next sequential page number for that Part and, on the last continuation sheet used, the words "End of Part" should be inserted after the last entry.
8. Where the cost accounting practice being disclosed is clearly set forth in the institution's existing written accounting policies and procedures, such documents may be cited on a continuation sheet and incorporated by reference to the pertinent Disclosure Statement Part. In such cases, the reporting unit should provide the date of issuance and effective date for each accounting policy and/or procedures document cited. Any supplementary comments needed to fully describe the cost accounting practice being disclosed should also be provided.
9. Disclosure Statements must be amended when disclosed practices are changed to comply with a new CAS or when practices are changed with or without agreement to the Government (Also see 48 CFR 9903.202-3).
10. Amendments shall be submitted to the same offices to which submission would have to be made were an original Disclosure Statement being filed.

**COST ACCOUNTING STANDARDS BOARD
DISCLOSURE STATEMENT
REQUIRED BY PUBLIC LAW 100-679
EDUCATIONAL INSTITUTIONS**

GENERAL INSTRUCTIONS

- 11. Each amendment should be accompanied by an amended cover sheet (indicating revision number and effective date of the change) and a signed certification. For all resubmissions, on each page, insert "Revision Number" and "Effective Date" in the Item Description block; and, insert "Revised" under each Item Number amended. Resubmitted Disclosure Statements must be accompanied by similar notations identifying the items which have been changed.**

**Continuation Sheet
PART I – GENERAL INFORMATION**

**REVISION No. 8 - November 15, 2024
UNIVERSITY OF MARYLAND COLLEGE PARK**

Item No.	Item Description
1.1.0	<p><u>Description of Cost Accounting System</u></p> <p>The University of Maryland College Park (UMD) employs a modified accrual basis of accounting for charges to Federally Sponsored agreements. Expenses are charged to sponsored projects using a cash basis as expenditures are made. Vacation leave is accrued at fiscal year-end but is not charged directly to University cost centers or Federally sponsored agreements until the vacation is taken. Expenses for materials and supplies post to sponsored agreements on a cash basis when vendor invoices are vouched for payment by the Accounts Payable Office. The vendor payments are usually made by check which are written by the General Accounting Division of the State of Maryland subsequent to vouching of the vendor invoice at UMD. When the books are closed at fiscal year-end, payables related to regular purchase orders are accrued in UMD’s accounting system, previously Quali Financial System that has been succeeded by Workday, including some Federally sponsored project accounts. Accruals made to UMD’s Financial Statements generally are not posted directly to the sponsored project accounts in the accounting system. These accruals are included in the UMD’s indirect cost study.</p> <p>Workday utilizes a Foundation Data Model (FDM) which is the core of the entire Workday platform. The FDM is a multi-dimensional data framework that supports financial, managerial, and statutory reporting. It defines the organizations and worktags UMD uses in transactions. The FDM supports both Finance and HCM and drives security and workflows.</p>
1.2.0	<p><u>Integration of Cost Accounting with Financial Accounting</u></p> <p>In general, all financial transactions are recorded in UMD’s financial accounting system. For the indirect cost rate proposal, UMD uses the EFACS from Huron Consulting as the cost accounting software package to develop the proposal. The data is sourced from the UMDs central administrative systems such as Workday and the space system. Adjustments and reclassifications are made in the EFACS system and are listed in various reconciliation schedules of the indirect cost proposal.</p>
1.3.0	<p><u>Treatment of Unallowable Costs</u></p> <p>Unallowable costs such as advertising (non-employment), selling and marketing expenses, alcoholic beverages, bad debts and collection costs, contributions, donations, legal expenses & settlements, fines and penalties, entertainment, flowers and gifts are recorded in the financial system via operational worktags called spend categories that fall under the object class of unallowables. In addition, the UMD uses the Workday functionality of assigning spend restrictions to sponsored awards. Expenditures in these spend categories are therefore prohibited from being charged to sponsored projects and are also excluded from allocation to indirect costs.</p>

A related worktag is assigned to dictate the Higher Education Function Code (HEFC) - research, teaching, or service to align with the appropriate cost pools.

Unallowable activities (e.g., alumni events, commencement, development, and public relations, etc.) are uniquely accounted for and identified by the accounting system via the Workday driver worktag hierarchy. Unallowable activities are removed from the indirect cost pools allocated to Federally sponsored agreements. An additional review (scrub) to identify unallowable costs is made during the development of UMD's indirect cost proposal.

Item No.	Item Description
1.3.1	<p><u>Treatment of Unallowable Costs</u></p> <p>Allocation bases include unallowable costs (e.g., unallowable activities noted in 1.3.0). Thus, these unallowable costs receive their fair share of general administrative costs.</p> <p>Unallowable costs are removed from indirect cost pools before such pools are allocated to the major expenditure functions and other IDC pools. Business rules within the IDC software are used to reclassify expenses associated with these spend codes to the other institutional activities' modified total direct cost base.</p> <p>In Workday, driver worktags are the primary worktags entered on a transaction. When a transaction is created, selecting a driver worktag “drives” the auto-populating of related worktags. Driver worktags are similar to KFS accounts. Driver worktag types are USource, Grant, Gift, and Project. Unallowable activities are first segregated by driver worktags and are not assignable to Grant driver worktags. Also, unallowable activities are identified in the University’s IDC proposal software and are included in the Other Institutional Activities base. Business rules within the IDC software are used to scrub expenses associated with these transactions to the other institutional activities’ modified total direct cost base.</p> <p>Unallowable costs are excluded from the federally funded modified total direct cost bases.</p>
1.5.0	<p><u>State Laws or Regulations</u></p> <p>The University of Maryland at College Park is a subset of the University System of Maryland which is a body corporate and an agency of the State of Maryland. The campus is subject to all Maryland laws and regulations listed in the <u>Annotated Code of Maryland</u> and the <u>Code of Maryland Regulations (COMAR)</u>.</p> <p>-End of Part 1-</p>

Instructions for Part II

Institutions should disclose what costs are, or will be, charged directly to Federally sponsored agreements or similar cost objectives as Direct Costs. It is expected that the disclosed cost accounting practices (as defined at 48 CFR 9903.302-1) for classifying costs either as direct costs or indirect costs will be consistently applied to all costs incurred by the reporting unit.

2.1.0

Criteria for Determining How Costs are Charged to Federally Sponsored Agreements or Similar Cost Objectives. (For all major categories of cost under each major function or activity such as, instruction, organized research, other sponsored activities and other institutional activities, describe on a continuation sheet, your criteria for determining when costs incurred for the same purpose, in like circumstances, are treated either as direct costs only or as indirect costs only with respect to final cost objectives. Particular emphasis should be placed on items of cost that may be treated as either direct or indirect costs (e.g., Supplies, Materials, Salaries and Wages, Fringe Benefits, etc.) depending upon the purpose of the activity involved. Separate explanations on the criteria governing each direct cost category identified in this Part II are required. (Also, list and explain if there are any deviations from other specified criteria).)

2.2.0

Description of Direct Materials. All materials and supplies directly identified with Federally sponsored agreements or similar cost objectives. (Describe on a continuation sheet the principal classes of materials which are charged as direct materials and supplies.)

2.3.0

Method of Charging Direct Materials and Supplies. (Mark the appropriate line(s) and if more than one is marked, explain on a continuation sheet.)

2.3.1

Direct Purchases for Projects are charged to Projects at:

- A. Actual Invoiced Costs
- B. Actual Invoiced Costs Net of Discounts Taken
- Y. Other(s)¹
- Z. Not Applicable

2.3.2

Inventory Requisitions from Central or Common, Institution-owned Inventory. (Identify the inventory valuation method used to charge projects.)

- A. First In, First Out
- B. Last In, First Out
- C. Average Costs¹
- D. Predetermined Costs¹
- Y. Other(s)¹
- Z. Not Applicable

REQUIRED BY PUBLIC LAW 100-679
EDUCATIONAL INSTITUTIONS**

PART II - DIRECT COSTS

**REVISION No. 8 - November 15, 2024
UNIVERSITY OF MARYLAND COLLEGE PARK**

2.4.0

Description of Direct Personal Services. All personal services directly identified with Federally sponsored agreements or similar cost objectives. (Describe on a continuation sheet the personal services compensation costs, including applicable fringe benefit costs, if any, within each major institutional function or activity that are charged as direct personal services.)

2.5.0

Method of Charging Direct Salaries and Wages. (Mark the appropriate line(s) for each Direct Personal Services Category to identify the method(s) used to charge direct salary and wage costs to Federally sponsored agreements or similar cost objectives. If more than one line is marked in a column, fully describe on a continuation sheet, the applicable methods used.)

	Direct Personnel Service Category			<u>Other</u> ¹
	<u>Faculty</u>	<u>Staff</u>	<u>Students</u>	
	(1)	(2)	(3)	
A. Payroll Distribution Method (Individual timecard/actual hours and rates for nonexempt and student)	_____	<u>✓</u> _____	<u>✓</u> _____

PART II - DIRECT COSTS

**REVISION No. 8 - November 15, 2024
UNIVERSITY OF MARYLAND COLLEGE PARK**

Item No.	Item Description
2.5.2	<p align="center"><u>Salary and Wage Cost Accumulation System.</u></p> <p>(Within each major function or activity, describe, on a continuation sheet, the specific accounting records or memorandum records used to accumulate and record the share of the total salary and wage costs attributable to each employee's direct (Federally sponsored projects, non-sponsored projects or similar cost objectives) and indirect activities. Indicate how the salary and the wage cost distributions are reconciled with the payroll data recorded in the institution's financial accounting records.)</p>
2.6.0	<p align="center"><u>Description of Direct Fringe Benefits Costs.</u> All fringe benefits that are attributable to direct salaries and wages and are charged directly to Federally sponsored agreements or similar cost objectives. (Describe on a continuation sheet <u>all</u> of the different types of fringe benefits which are classified and charged as direct costs, e.g., actual or accrued costs of vacation, holidays, sick leave, sabbatical leave, premium pay, social security, pension plans, post-retirement benefits other than pensions, health insurance, training, tuition, tuition remission, etc.)</p>
2.6.1	<p align="center"><u>Method of Charging Direct Fringe Benefits.</u> (Describe on a continuation sheet, how each type of fringe benefit cost identified in item 2.6.0 is measured, assigned and allocated (for definitions, See 9903.301-1); first, to the major functions (e.g., instruction, research); and, then to individual projects or direct cost objectives within each function.)</p>
2.7.0	<p align="center"><u>Description of Other Direct Costs.</u> All other items of cost directly identified with Federally sponsored agreements or similar cost objectives. (List on a continuation sheet the principal classes of other costs which are charged directly, e.g., travel, consultants, services, subgrants, subcontracts, malpractice insurance, etc.)</p>
2.8.0	<p align="center"><u>Cost Transfers.</u> When Federally sponsored agreements or similar cost objectives are credited for cost transfers to other projects, grants or contracts, is the credit amount for direct personal services, materials, other direct charges and applicable indirect costs always based on the same amount(s) or rate(s) (e.g., direct labor rate, indirect costs) originally used to charge or allocate costs to the project (Consider transactions where the original charge and the credit occur in different cost accounting periods). (Mark one, if "No", explain on a continuation sheet how the credit differs from original charge.)</p> <p><input checked="" type="checkbox"/> Yes</p> <p><input type="checkbox"/> No</p>

Item No.	Item Description
2.1.0	<p><u>Criteria for Determining How Costs are Charged to Federally Sponsored Agreements or Similar Cost Objectives</u></p> <p>UMD records costs via a series of worktags. Worktags are identifiers used to describe and categorize transactions and events in Workday. Many attributes and business objects function as worktags in Workday including, but not limited to, Grants, Cost Centers, Spend Categories, USources, Higher Ed Function Codes, and Supervisory Organizations. Driver worktags are the primary worktags entered on a transaction. When you create a transaction, selecting a driver worktag “drives” the auto-populating of related worktags. Driver worktags are similar to the previous KFS accounts. Driver worktag types are USource, Grant, Gift, and Project. Each represents one specific activity or function of the University. Related worktags are associated with driver worktags and auto-populate when a driver worktag is selected. Sometimes they are called Additional Worktags in Workday. Related worktag types are Fund, Cost Center, Balancing Unit, and Higher Ed Function Code. Operational worktags categorize income and expenses on transactions. They are similar to the previous KFS object codes. Operational worktag types are Revenue Category, Spend Category, and Ledger Account. The cost for any particular transaction is recorded using worktags which identify the specific activity or function, the cost center and Higher Education Function Code and the type of cost incurred. The determination of the classification of a cost is not based on type of cost or the spend code, but the purpose and circumstances of the expense. Amounts charged directly to Federally sponsored projects, or similar cost objectives are those which can be identified specifically with such activity relatively easily with a high degree of accuracy. If a cost benefits two or more projects or activities in proportions that can be determined without undue effort or cost, the cost is allocated to the projects based on the proportional benefit as defined by the Principal Investigator. If a cost benefits two or more projects or activities in proportions that cannot be determined because of the interrelationship of the work involved, then the costs are allocated or transferred to benefitted projects on any reasonably documented basis, as determined by the Principal Investigator or designee. Costs which benefit multiple activities and cannot be easily and accurately prorated between the activities are classified as indirect costs.</p> <p>In accordance with University policy, the determination of allowability of direct charging of administrative and clerical salaries and other general supplies will be made at a central level. These costs may only be charged directly to federally sponsored projects if the Principal Investigator or their designee can demonstrate (1) that the services or materials are integral to the project; (2) individuals or administrative costs can be specifically identified with the project or program; (3) the costs are not also recovered as indirects costs. Sponsored Programs funded by other than federal agencies may charge these costs directly to these projects to the limits allowed by the agreement.</p>

REQUIRED BY PUBLIC LAW 100-679
EDUCATIONAL INSTITUTIONS**

**Continuation Sheet
PART II – DIRECT COSTS**

**REVISION No. 8 - November 15, 2024
UNIVERSITY OF MARYLAND COLLEGE PARK**

Item No.	Item Description
2.2.0	<p>Only those costs that are allowable and allocable are direct charged. Principal Investigators, departmental administrators and, in some specific instances, central administrative officials review costs to ensure that they are allowable and allocable to a project.</p> <p>Similar costs incurred in like circumstances are consistently treated as either direct or indirect. Size, nature, and complexity of sponsored agreements, although not the final determining factors, are in the aggregate, important considerations in determining unlike circumstances. Due to the unique requirements of each sponsored agreement, unlike circumstances are determined on a case-by-case basis.</p> <p>An unlike circumstance occurs when a particular project requires specific and identifiable support that is over and above the level of support provided and charged indirectly to all activities. Such costs are charged as direct costs since they are incurred for a different purpose.</p> <p>As a Land Grant institution, UMD receives federal formula funded appropriations from USDA, which prohibits the charging of indirect costs but allows for direct charging of associated college and departmental administrative costs.</p> <p><u>Description of Direct Materials</u></p> <p>The principal object classes of materials and supplies which are directly charged to federally sponsored agreements or similar cost objectives include the following spend category hierarchies: chemical and laboratory supplies, radioisotopes, drugs, minor equipment (those less than the capitalization level), gases, gasoline, radioactive material, biological/select agents, purchase and care of animals and electronic supplies (such as audio, visual, photo, electronic, engineering, medical, teaching and computer devices).</p> <p><u>Procurement</u></p> <p>UMD follows the general guidelines for procurement standards outlined in sections §200.317-327 of OMB Uniform Guidance when procuring property and services under a Federal Award.</p>

Item No.	Item Description
2.3.2	<p><u>Method of Charging Direct Materials and Supplies</u></p> <p>Costs incurred for materials, supplies, and fabricated parts necessary to carry out Federal awards are purchased and charged at their actual prices, net of applicable credits. Withdrawals from general stores or stockrooms are charged at their actual net cost. Incoming transportation charges are a proper part of materials and supplies costs.</p> <p>Computing devices are charged as direct costs for devices that are essential and allocable, but not solely dedicated, to the performance of an award.</p>
2.4.0	<p><u>Description of Direct Personal Services</u></p> <p>The principal spend categories for direct personal service costs are tenure track faculty, professional track faculty (research scientists, technical staff) exempt staff, non exempt staff and students. Amounts provided to post-doctoral and graduate students for work on research projects and teaching activities are also treated as direct costs. The direct charges include salaries and fringe benefits. In the case of graduate students, compensation may include tuition, fees, and other fringe benefits. Salaries and fringe benefits of administrative and clerical staff are charged directly under the conditions described in 2.1.0.</p>
2.5.0	<p><u>Method of Charging Direct Salaries and Wages</u></p> <p>UMD uses an after-the-fact confirmation method originally provided for in OMB Circular A-21, Section J.10c(2). The successor and current regulation, the 2 CFR Uniform Guidance for Federal Financial Assistance (Uniform Guidance) does not specify a preferred methodology. Effort Certification Reports are certified semi-annually in the Workday System used by faculty, all staff, and students. The Effort Certification process in Workday is used for</p>
2.5.1	<p>individuals charged directly by sponsored projects. If a salaried employee has charged any time to sponsored activity, all sponsored and non-sponsored payroll will appear on the report.</p>
2.5.2	<p>Allocations are entered by a Costing Specialist or HR Analyst after the Principal Investigator identifies the estimated percent allocated to the sponsored project and to. Effort certification verifies that the effort expended by personnel on a project is accurate and reflects the work that was performed. The Effort Certification Reviewer, Principal Investigator, and Employee-as-self have the option to change an effort report before certification. If no change is necessary, the Employees-as-self or Principal Investigator certifies the report to complete the process.</p> <p>The system allows for changes to the distribution of salary on an ongoing basis. Amounts charged to sponsored programs are verified semi-annually after the 14th payroll of the fiscal year (January) and after the final payroll of the fiscal year (pay period 27 in June), using UMD's approved on-line Effort Reporting System. Note that UMD is converting to the Workday Effort Certification System in fiscal year 2025, thus there are three certifications (provide time frame and pay period date) for this particular fiscal year.</p>

PART II - DIRECT COSTS
REVISION No. 8 - November 15, 2024
UNIVERSITY OF MARYLAND COLLEGE PARK**

Item No.	Item Description
2.6.0	<p>Retiree Health Insurance: The same health insurance programs are available to retirees as are available to employees.</p> <p>Fed Employee Group Life Ins: Employer’s share of contributions for employees enrolled in the Federal Employees Group Life Insurance.</p> <p>Social Security (FICA): Employer’s share of social security payments based on the effective rate and base as provided by Federal law. Also includes employer’s share of hospital insurance tax for Federal Civil Service employees of the University.</p> <p>Unemployment Insurance Regular Employee: Employer’s share of unemployment insurance premium for regular (other than contractual) employees.</p> <p>Unemployment Insurance Contractual Employee: Employer’s share of unemployment insurance premium for contractual employees.</p> <p>Tuition Waiver-Employees: Cost of tuition waivers granted to UMD employees (other than Graduate Assistants and Post-doctoral scholars).</p> <p>Tuition Waiver-Grad Asst: Cost of tuition waivers granted to graduate assistants.</p>
2.6.1	<p><u>Method of Charging Direct Fringe Benefits</u></p> <p>Beginning fiscal year 2020, UMD instituted fringe benefit rates approved by the Department of Health and Human Services (DHHS) Cost Allocation Services (CAS). Fringe benefit rates are negotiated with CAS based on actual prior year costs, including projections for anticipated increases in benefit costs, and carry-forward- adjustments for prior year (over or under) recoveries. This agreement will delineate which fringes are direct charged and which are included in the rate.</p> <p>Fringe benefit rates are based on groupings of employees with similar fringe benefit entitlements. The cost of fringe benefits for each employee grouping is divided by their total salaries and wages.</p>
2.7.0	<p><u>Description of Other Direct Costs:</u></p> <p>Principal categories of other costs include: travel, consulting services, animals, animal care, human subject compensation and incentives, and other specialized and technical services; publication costs; sub-awards; equipment; information technology systems; alterations and renovations needed to meet specific project requirements; telecommunications; repair and maintenance costs; rent and other facility costs of off-campus facilities. Workday utilizes a series of object classes to group expenditures. The main object classes are equipment, salary and wage, benefits, subcontracts, professional activities, travel, tuition and indirect costs. Each object class has more defined spend categories to capture detail at the transaction level.</p> <p>- End of Part II -</p>

3.1.0
continued

purposes of the determination of indirect cost rates according to the provisions of the Uniform Guidance. An analysis of operating expenses is performed to identify expenses that are to be reported as General Administrative and General Expense. Offices included in this indirect cost pool are President's Office, Legal Office, Division of Administration and Finance, and University Human Resources. This pool includes an allocable share of depreciation and use allowances, interests, and operation and maintenance expenses. The aggregate expenses are allocated to benefited functions on the modified total direct cost basis.

D. Departmental Administration:

UMD's records departmental administrative costs in units such as the Graduate School, academic dean's offices, academic departments, organized research units and research centers. Expenses are composed of salaries and wages, fringe benefits, services, materials and supplies subject to the limitations and exclusions in the Uniform Guidance, including the special rules regarding treatment of salary and fringe benefits attributable to the 3.6% MTDC administrative allowance for faculty and other professionals. This pool includes an allocable share of depreciation and use allowances, interest, operation and maintenance, and general administration and general expenses.

A DCE calculation is used in the development of the DA cost pool. The DCE ratio is defined as general support salaries and wages (GNS S&W) charged to sponsored accounts divided by faculty and professional salaries and wages (F&P S&W) charged to sponsored accounts. The DCE ratio is then compared against the actual GNS S&W and the actual F&P S&W (less the salary and wage portion of the 3.6% faculty administrative allowance) which have been charged to each department's general operating (i.e., non-sponsored) accounts. The assumption is that the GNS S&W which supports the F&P S&W from the non-sponsored accounts should be in the same proportion to the GNS S&W which supports the F&P S&W for sponsored accounts. If there is residual GNS S&W which supports the F&P S&W from the non-sponsored accounts, it should be treated as DA expense. The University believes that the assumption is not necessarily valid but is using the DHHS, DCE methodology.

E. Sponsored Projects Administration:

The sponsored projects administration pool includes expenses of those organizations that were separately established primarily to administer sponsored projects, including such functions as grant and contract administration and accounting. Expenses are composed of salaries and wages, fringe benefits, services, and other direct costs. The pool includes an allocable share of general administration, operation and maintenance expenses, and depreciation/use allowances. These expenses are allocated to the major functions of the institution under which sponsored projects are conducted on the basis of the modified total cost of sponsored projects. Sponsored projects include sponsored instruction, sponsored research, and other sponsored activities.

Library:</u></p> <p>The library pool was created by combining the cost of operating the various libraries of the library system into a single pool and distributing the cost based on primary categories of users with undergraduate students being allocated 100% to instruction. The costs include the cost of books and materials purchased for the library excluding purchases of rare books. The library cost pool includes an appropriate share of general administration, operations and maintenance expense and depreciation/use allowance.</p> <p><u>G. Student Services and Administration:</u></p> <p>The Student Services and Administration cost pool includes expenses incurred for the administration of student affairs and for services to students, including such offices/activities as the Vice President for Student Affairs, Undergraduate Admissions, Records & Registration, Student Financial Aid and Student Health. Expenses are composed of salaries and wages, fringe benefits and other direct costs. An appropriate share of general administration, operations and maintenance expense and depreciation/use allowance is included. The expenses in this category are allocated 100% to the Instruction function.</p>
<p>3.2.0</p>	<p><u>Service Centers:</u></p> <p>Specialized Service Facilities (SSF), service centers greater than \$1,000,000 in revenue, must recover the cost of the facilities they occupy through their billing rates. SSF will be charged an amount per square foot depending upon the building they occupy. The costs of these facilities include their allowable direct costs and their full allocable share of indirect costs. These facilities' full allocable share of indirect costs is excluded from the indirect cost proposal. The University includes specialized service facility operating costs in the applicable indirect cost distribution in a separate allocation base developed for calculation of the indirect cost rate. In doing so, the specialized service facilities allocate their fair share of indirect costs and consider inclusion of these charges in the allocation bases to be equitable to the federal government. UMD excludes specialized service facility charges from the research, instruction, and other sponsored bases used to apply indirect costs to individual accounts. The total costs of the specialized service facilities are accounted for through a schedule of rates which apply to all users of the facility on the basis of actual utilization, and which does not discriminate against any one segment of the user population. Volume discounts or other special pricing mechanisms are equally available to all users who meet the criteria. Rate schedules are published and available to all potential users. External users of a center are not charged at a rate less than that charged to internal UMD and federal users and include University indirect cost.</p>

User Rates: Rate proposals are submitted to the Sponsored Programs Accounting and Compliance (SPAC) Office at least annually for a formal analysis of costs and rates.

Accounting: Specialized service facilities are separate and distinct entities. Funds and accounting activities are not commingled with funds or accounting activities of other organizational units inside or outside of the departments where the centers reside. Each specialized service facility operates from separate accounts, normally in the educational and general designated range. An operating surplus of a center must not be used for purposes unrelated to the operations of that particular center.

(a) Animal Care Facility

This facility has the responsibility for providing goods and services related to the operation of the animal facilities and other veterinary care for animals used in research and teaching projects. Direct costs include the cost of bedding, immunization, food, cages, and salaries and applicable employee benefits. The indirect costs include space costs. From the direct and the indirect costs, a per diem rate is calculated. The primary methodology in developing the per diem rates for the Animal Care Facility is from the NCRR's Cost Analysis and Rate Setting manual for Animal Care Facilities.

The Animal Care Facility operates at a loss which is borne by the University. Because the institution absorbs the operating loss of the Animal Care Facility no variances are rolled forward into future years rates.

(b) The Glenn L. Martin Wind Tunnel - Due to COVID, the amount of revenue from the Wind Tunnel Service Center has decreased to below \$500,000 and therefore is being removed as a Specialized Service Center.

(c) The Maryland Nano Fab Facility

Rates are per equipment type and user type. The facility maintains a very detailed cost study and usage log. The percentage of usage of each instrument is then applied to the appropriate expense categories to determine rates.

(d) The Maryland Neuroimaging Center (MNC) - The amount of revenue generated from the MNC has decreased to less than \$250,000 and therefore is being removed as a Specialized Service Center.

3.4.0

Composition of Indirect Costs Pools.

Buildings/Equipment/Capital Improvements--The expenses under this category are the portion of the costs of the University which are computed in accordance with the Uniform Guidance.

Interest--The interest expense in this indirect cost pool is interest on external debt associated with buildings, equipment, and capital improvements.

Operations and Maintenance--The expenses under this heading are those that have been incurred for the administration, supervision, operation, maintenance, preservation, and protection of the institution's physical plan. It includes expenses such as janitorial and utility services; repairs and ordinary or normal alterations of buildings, furniture and equipment; care of grounds; maintenance and operation of buildings and other plant facilities; security; disaster preparedness; environmental safety; hazardous waste disposal; property, liability and all other insurance relating to property; space and capital leasing; facility planning and management; and central receiving. It also includes its allocable share of fringe benefit costs, depreciation and use allowances and interest costs.

General Administration (GA)--The expenses under this heading are those that have been incurred for the general executive and administrative offices and other expenses of a general character which do not relate solely to any major function of the institution, i.e., solely to (1) instruction, (2) organized research, (3) other sponsored activities, or (4) other institutional activities. The GA category also includes its allocable share of fringe benefits costs, operation and maintenance expenses, depreciation and use allowances, and interest costs. Examples of GA include those expenses incurred by administrative offices that serve the entire university system of which the institution is a part, central offices of the institution such as the President's office, general counsel, human resources, the offices for institution wide financial management, business services, personnel management, and the operations of the central administrative management information systems.

Departmental Administration (DA)--The DA category are those expenses incurred for administrative and supporting services that benefit common or joint departmental activities or objectives in academic deans' offices, academic departments, and organized research units.

Sponsored Project Administration--The expenses under this heading are limited to those incurred by a separate organization(s) established primarily to administer sponsored projects. This pool also includes an allocable share of fringe benefits, general administration, operation and maintenance, interest, and depreciation/use allowances.

3.4.0
continued

Depreciation on Buildings and Equipment--Building and equipment depreciation is allocated to the individual functions performed in each building based on usable square feet of space excluding common areas such as hallways, stairwells, and rest rooms.

Interest—Interest costs are allocated on the same basis as depreciation on the buildings and equipment to which the interest relates.

General Administration--General Administration is allocated based on Modified Total Costs (MTDC). MTDC consists of salaries and wages, fringe benefits, materials and supplies, services, travel, and up to the first \$25,000 of each subawards (regardless of the period covered by the subawards under the awards). The following cost elements are excluded from the MTDC base: equipment that meets the University’s capitalization threshold, other capital expenditures, charges for patient care and tuition remission, space rental costs, scholarships and fellowships, and the portion of each subgrant and subcontract in excess of \$25,000.

Department Administration--Department Administration is allocated based on Modified Total Direct Costs (MTDC), as defined in the Uniform Guidance. The administrative expenses for each department are allocated to the direct functions within that department. The cost elements include salaries, fringe benefits non-labor costs, depreciation, O&M, and general and administrative cost.

Sponsored Project Administration--Sponsored Projects Administration is allocated based on the MTDC of the sponsored projects within each major function of the institution.

Composition of Allocation Bases.

3.5.0

D Modified Total Direct Costs

Modified Total Direct Costs is defined as total costs consisting of salaries and wages, fringe benefits, materials and supplies, services, travel and subawards up to \$25,000. These base costs do not include capital expenditures (buildings, individual items of equipment, alterations and renovations), hospitalization and other fees associated with patient care whether the services are obtained from owned, related or third-party hospital or other medical facility; rental/maintenance of off-site activities, student tuition remission and support costs (e.g. student aid, dependence allowances, scholarships, fellowships). Other items are excluded where necessary to avoid a serious inequity in the distribution of indirect costs.

Off-Campus Definition: For all activities performed in facilities not owned by this organization and to which rent is directly allocated to the project(s), the off-campus rate will apply. Projects partially performed off-site are apportioned between their on-site/off-site components when projects activity is conducted off-site for at least three consecutive months. Off-Campus, Adjacent applies to activities performed within commuting area of College Park, Maryland.

PART III – INDIRECT COSTS
REVISION No. 8 - November 15, 2024
UNIVERSITY OF MARYLAND COLLEGE PARK**

Item No.	Item Description
3.5.0 continued	<p>The modified total direct cost base includes UMD expenditures related to grants and contracts conducted at the following facilities: Agricultural Experiment Station, Cooperative Extension Service.</p> <p><u>L – Square Footage</u></p> <p>All assignable square footage of benefiting direct and indirect activities is included. Common areas such as hallways, stairwells and rest rooms are excluded. The square footage of a given room is assigned to direct and indirect cost objectives based on a survey of the space usage of the room. General classroom space has been assigned to the Instruction cost pool.</p> <p><u>M – Usage</u></p> <p>Facility costs are allocated to cost pools based upon the functional use of space. Space units have either been functionally assigned based on the activity in the unit or treated as joint use if more than one function takes place in a given unit. If the space is determined to be jointly used, the functional use of that space is determined based on a survey of the space usage of the rooms.</p> <p><u>P – More than one base</u></p> <p>Operation and Maintenance costs are grouped by type (utilities, maintenance & custodial, and campus wide expenses incurred for administration & supervision, security, environmental safety, facility planning & management and central receiving). Each group is allocated using the most specific and relevant data available. GAAP dictates that Auxiliary Enterprises be directly charged their share of O&M costs. The AICPA guide “Audits of College and Universities” states, “This Category (Auxiliary Enterprises) of expenditures embraces all costs of operating the auxiliary enterprises, including charges for operation and maintenance of physical plant.” The Operation and Maintenance of Plant section of the guide states “Operation and Maintenance of Plant includes all expenditures for the operation and maintenance of the institution’s plant. Appropriate allocations of operating and maintenance costs should be made to auxiliary enterprises.” UMD follows GAAP.</p>

PART III – INDIRECT COSTS
REVISION No. 8 - November 15, 2024
UNIVERSITY OF MARYLAND COLLEGE PARK**

Item No.	Item Description
3.5.0 continued	<p>UMD charges all departments directly for special projects, such as renovations, which are not part of the normal O&M function. This is done to ensure equity. Those departments that put unusual demands for services on the O&M function pay directly for those extra services.</p> <p>UMD charges auxiliary enterprises directly, in accordance with GAAP, for its costs of O&M. These costs are charged directly in the accounting system. In this case, O&M includes utilities, building maintenance and custodial services. It does not include “campus wide” O&M. Campus wide O&M is that portion of maintenance costs that cannot be attributed to the specific building. This last grouping includes snow removal, lawn care, etc.</p> <p>The balance of the O&M costs comprise the O&M cost pool of the indirect cost proposal and are allocated to those functions and pools that had not been charged indirectly for these costs. This allocation is made on a net assignable square footage basis, in accordance with the Uniform Guidance. The O&M pool is broken down into three groupings: utilities, buildings/custodial services and “campus wide.” Utilities and building/custodial services are distributed to all space that had not been charged directly for those costs. The excluded space is primarily auxiliary enterprise space that had already been charged for these two groupings of costs. The remaining space that comprises the O&M allocation base is all non- auxiliary enterprise space. Auxiliary enterprise space is excluded so that it does not get charged twice for these costs.</p> <p>As stated above, “campus wide” represents the portion of maintenance costs that cannot be attributed to a specific building. At this point in the allocation of O&M costs, the costs in this grouping have not been directly charged or allocated to any final cost objective or indirect cost pool. These costs are allocated to all campus space, including auxiliary enterprise space. The allocation of “campus wide” O&M costs to auxiliary enterprise space is done to assure that the research indirect cost pool for O&M is not excessively charges for these services.</p> <p>The protocol assures that all functions and activities are charged with their appropriate share of O&M costs and that no area is overcharged for these services.</p> <p>Library costs are allocated in the “Facilities” category, in accordance with the Uniform Guidance.</p> <p>- End of Part III -</p> <p>3.6.0 Revised</p>

REVISION No. 8 - November 15, 2024
UNIVERSITY OF MARYLAND COLLEGE PARK**

4.1.1

Asset Valuations and Useful Lives. Are the asset valuations and useful lives used in your indirect cost proposal consistent with those used in the institution's financial statements? (Mark one.)

- A. Yes
- B. No¹

4.2.0

Fully Depreciated Assets. Is a usage charge for fully depreciated assets charged to Federally sponsored agreements or similar cost objectives? (Mark one. If yes, describe the basis for the charge on a continuation sheet.)

- A. Yes
- B. No

4.3.0

Treatment of Gains and Losses on Disposition of Depreciable Property. Gains and losses are: (Mark the appropriate line(s) and if more than one is marked, explain on a continuation sheet.)

- A. Excluded from determination of sponsored agreement costs
- B. Credited or charged currently to the same pools to which the depreciation of the assets was originally charged
- C. Taken into consideration in the depreciation cost basis of the new items, where trade-in is involved
- D. Not accounted for separately, but reflected in the depreciation reserve account
- Y. Others¹
- Z. Not Applicable

4.4.0

Criteria for Capitalization. (Enter (a) the minimum dollar amount of expenditures which are capitalized for acquisition, addition, alteration, donation, and improvement of capital assets, and (b) the minimum number of expected life years of assets which are capitalized. If more than one dollar amount or number applies, show the information for the majority of your capitalized assets, and enumerate on a continuation sheet the dollar amounts and/or number of years for each category or subcategory of assets involved which differs from those for the majority of assets.)

	Equipment	Buildings & Improvements
A. Minimum Dollar Amount	<u>\$ 5,000</u>	<u>\$ 250,000</u>
B. Minimum Life Years	<u>1</u>	<u>20</u>

4.5.0

Group or Mass Purchase. Are group or mass purchases (initial complement) of similar items which individually are less than the capitalization amount indicated above, capitalized? (Mark one.)

- A. Yes¹
- B. No

This practice is consistent with generally accepted accounting principles for public colleges and universities as outlined in the American Institute of Certified Public Accountant’s <u>Industry Audit Guide, Audits of Colleges, and Universities.</u></p> <p>-End of Part IV-</p>

Instructions for Part VI

This part covers the measurement and assignment of costs for employee pensions, post-retirement benefits other than pensions (including post-retirement health benefits) and insurance. Some organizations may incur all of these costs at the main campus level or for public institutions at the governmental unit level, while others may incur them at subordinate organization levels. Still others may incur a portion of these costs at the main campus level and the balances at subordinate organization levels.

Where the segment (reporting unit) does not directly incur such costs, the segment should on a continuation sheet identify the organizational entity that incurs and records such costs. When the costs allocated to Federally sponsored agreements are material, the reporting unit should require the entity to complete the applicable portions of this Part IV. (See item 4, page (i), General Instructions)

6.1.0

Pension Plans.

6.1.1

Defined-Contribution Pension Plans. Identify the types and number of pension plans whose costs are charged to Federally sponsored agreements. (Mark applicable line(s) and enter number of plans.)

Type of Plan

Number of Plans

A. Institution employees participate in

— State/Local Government Retirement Plan(s)

B. Institution uses TIAA/Fidelity plan or other defined

4

— contribution plan that is managed
by an organization not affiliated with
the institution

C. ___ Institution has its own Defined-Contribution
Plan(s)¹

6.1.2

Defined-Benefit Pension Plan. (For each defined-benefit plan (other than plans that are part of a State or Local government pension plan) describe on a continuation sheet the actuarial cost method, the asset valuation method, the criteria for changing actuarial assumptions and computations, the amortization periods for prior service costs, the amortization periods for actuarial gains and losses, and the funding policy.)

6.2.0

Post-Retirement Benefits Other Than Pensions (including post-retirement health care benefits) (PRBs). (Identify on a continuation sheet all PRB plans whose costs are charged to Federally sponsored agreements. For each plan listed, state the plan name, and indicate the approximate number and type of employees covered by each plan.)

REVISION No. 8 - November 15, 2024
UNIVERSITY OF MARYLAND COLLEGE PARK**

Item No.	Item Description
7.1.0	<p><u>Organizational Structure</u></p>
	<p>See Organization Chart following item 7.2.0 E, on this continuation sheet.</p>
7.2.0	<p><u>Cost Accumulation and Allocation</u></p> <p>A. Services provided to segments of the University System</p> <p>The mission of the University System of Maryland Office (USMO) is to provide leadership, planning, and resource management to advance the quality and accessibility of USM services, and to increase the synergies among the USM member institutions.</p> <p>The USMO serves three principal constituencies: the citizens of Maryland, the USM Board of Regents, and the USM member institutions.</p> <p>The USMO develops strategic plans for the USM in response to statewide needs; ensures the efficient and effective use of the System’s financial resources; sets system wide performance standards; and facilitates collaborative efforts among USM institutions.</p> <p>The USMO recommends to the Board of Regents system wide policies and procedures; monitors academic, financial, and other administrative performance throughout the System; provides management information for planning and decision-making; develops and evaluates institutional leadership; and analyzes major issues facing the USM.</p> <p>The USMO charts the direction for the System as a whole; fosters; productive partnerships among institutions of the USM and with government, industry, and other key constituencies; secures financial support from public and private sources; arbitrates inter-institutional issues; and provides management counsel and technical assistance in key administrative areas.</p> <p>B. How the costs of the services are identified and accumulated</p> <p>University System of Maryland Office costs are identified and accumulated in its Financial System . Costs are recorded by objective of expenditure within cost centers. Reports are produced monthly which show detailed expenditures processed for the month, and year-to-date amounts summarized by object of expenditure within each cost center.</p> <p>The costs of the State of Maryland Central Services and Legislative Auditor are identified and accumulated. These costs are provided by the Department of Budget and Fiscal Planning and the Legislative Auditor, respectively.</p>

REVISION No.8 - November 15, 2024
UNIVERSITY OF MARYLAND COLLEGE PARK**

Item No.	Item Description
7.2.0 continued	<p>C. Basis used to allocate the accumulated costs to the benefiting segments</p> <p>The allocation rate used to distribute USMO costs and the State Central costs is based on each institution's percentage of total system salaries and wages less the allocable portion of USMO. The costs of the Legislative Auditor are allocated directly to the institution as incurred.</p> <p>D. Any costs that are transferred from a segment to the central system office or intermediate administrative office, and which are relocated to another segment.</p> <p>None.</p> <p>E. Any fixed management fees that are charged to a segment(s) in lieu of a pro-rata or allocation basis and the basis of such charges.</p> <p>None.</p> <p>-End of Part VII-</p>
